Projects

BIKE RENTAL SYSTEM

This project is designed so as to be used by Bike Rental Company specializing in renting bikes to customers. It is an online system through which customers can view available bikes, register, view profile and book bike.

AMAZON CLONE

I developed an Amazon Clone using HTML, CSS, and JavaScript to replicate the core functionalities of the popular e-commerce platform. This project demonstrates my proficiency in front-end web development and showcases my ability to create responsive and visually appealing user interfaces.

PERSONAL PORTFOLIO

Portfolio is my personal portfolio website showcasing my web development skills, projects, and achievements. It features a clean, modern design, full responsiveness. The site includes sections for an introduction, about me, projects, skills, resume, and contact information.
